

2018-12-17 Weekly Field Report

Box 30 is the last box from this batch and should be complete today or tomorrow.

Box 29 is currently being QC'd and 30 will follow once complete

Boxes 26-30 will need to process, perhaps done by Thursday of next week, with people having time off and holidays.

With the next batch we have the first box on the machine.

From our current schedule, I am 'hazily' guessing 4 weeks from scan to completion putting us at a January 23rd.
