

Flow Board

Flow Board lets you create on the fly draggable lists and cards. Familiar if you've used Trello or Kanban.

Create your first board

1. Create a new, or navigate to an existing, page
2. Insert the **flow board** macro by going to the + choosing other macros and searching for **flow board**
3. Save the page.
4. Create a new **list** and add **cards** to it.
5. You can play with the example below.
 - a. Click on any list or card to edit it or add a comment.
 - b. Assign a task to someone by adding @ their name to a card
 - c. Click on "new card" to make a new card.
 - d. Drag and drop cards to rearrange their importance
